

Power Unit / Test unit

QTY: 1

Standard Power unit:

SPU

| | |
|---------------|----------------------------|
| Pressure | 2500 - 3000 PSI |
| Pump capacity | 2 – 5 GPM |
| Hydraulic oil | HV32 |
| Power | 5 HP, 110 – 220 V, AC line |
| Tank capacity | 15 Gallons |

Small Testing Power unit:

TLP

| | |
|---------------|----------------------------|
| Pressure | 2500 - 3000 PSI |
| Pump capacity | 2 – 5 GPM |
| Hydraulic oil | HV32 |
| Power | 5 HP, 110 – 220 V, AC line |
| Tank capacity | 25 Gallons |

- It has one electrical valve and one manual valve for testing the cylinder for pressure, internal leakages, and external leakages.

Large Testing Power unit:

THP

| | |
|---------------|--------------------------------------|
| Pressure | 5000 PSI (10000 upon request) |
| Pump capacity | 8 GPM |
| Hydraulic oil | HV32 |
| Power | 20 HP, Customizable voltage, AC line |
| Tank capacity | 100 Gallons |
